Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Agreement was reached for overcoming claim objections. Examiner suggested amending claim 20 to recite "a tangible computer readable medium" to overcome the 101 rejections and to exclude the disclosed carrier wave reference. Applicants suggested that Roetling fails to disclose selecting the filter based on an estimate screen frequency and limit parameters. Examiner explained that due to the open-ended nature of e.g. claim 1, Roetling anticipates selection of a filter "based on" an estimated frequency and limit parameters (i.e. spatial gradients). No agreement was reached regarding allowable claim language.
